

Putting the  
power in  
your hands

A tailored strategy, from generation to investment, by one  
of the UK's leading energy management specialists

# The bigger picture

In today's world, many organisations don't realise that the ability to take greater control of their energy is possible. At IU Energy, we work with our clients to demonstrate how they can maximise their energy savings by expanding their influence.

## BENEFITS TO YOU?

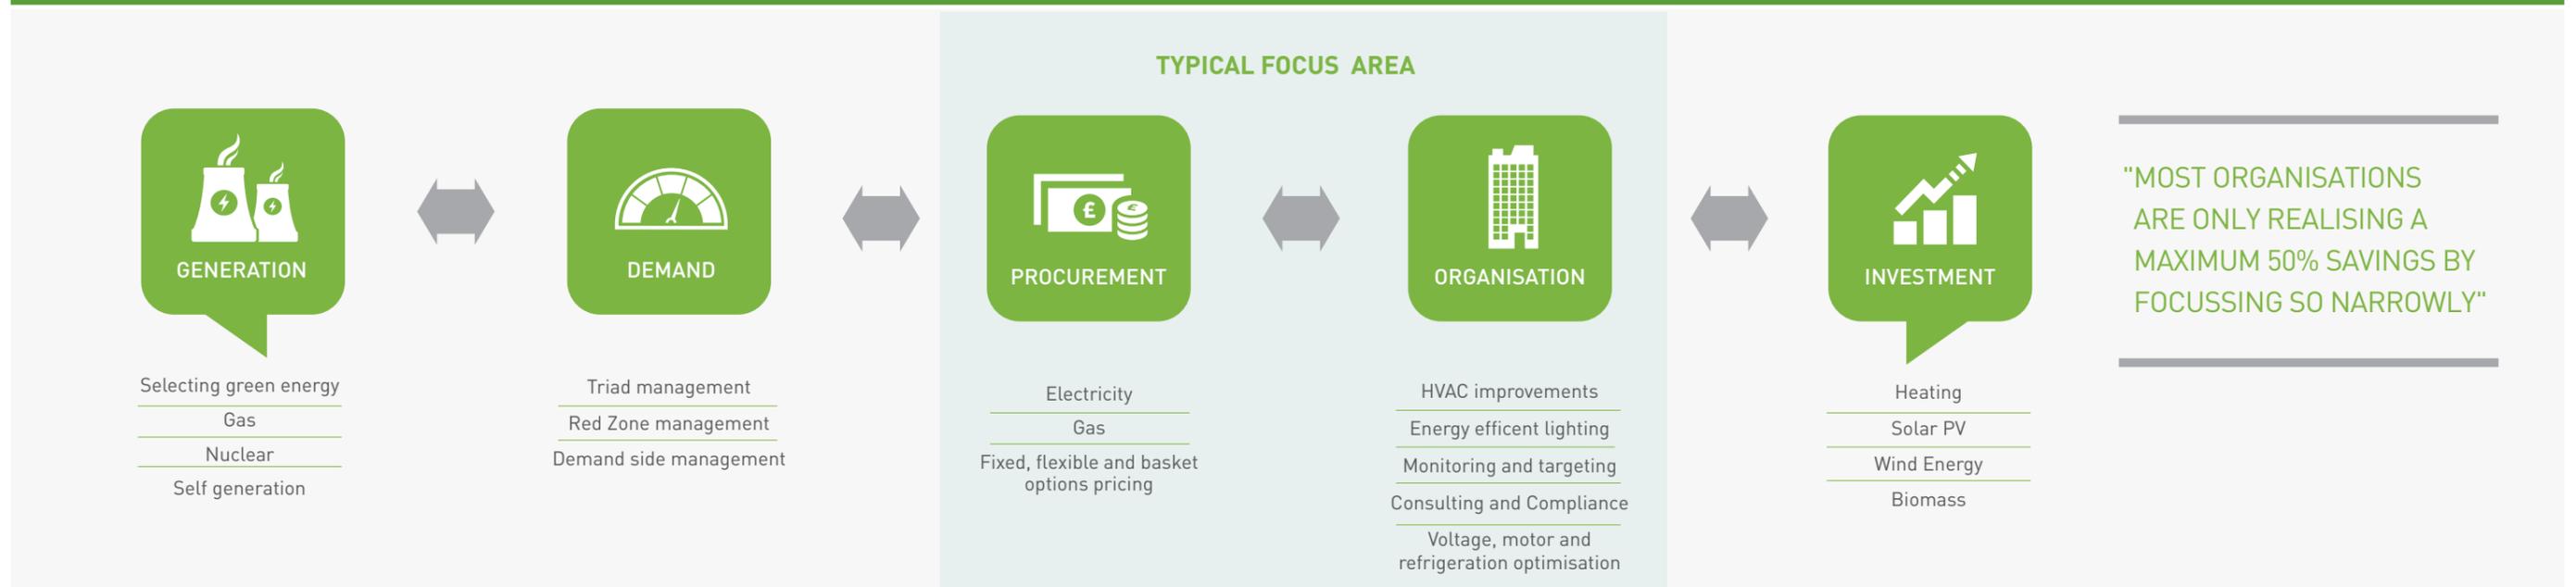

IU Energy can deliver a cost effective strategy to reduce your energy waste and carbon footprint, enabling you to become a more sustainable business.

Our specialist expertise offer innovative consultations, showing how you can

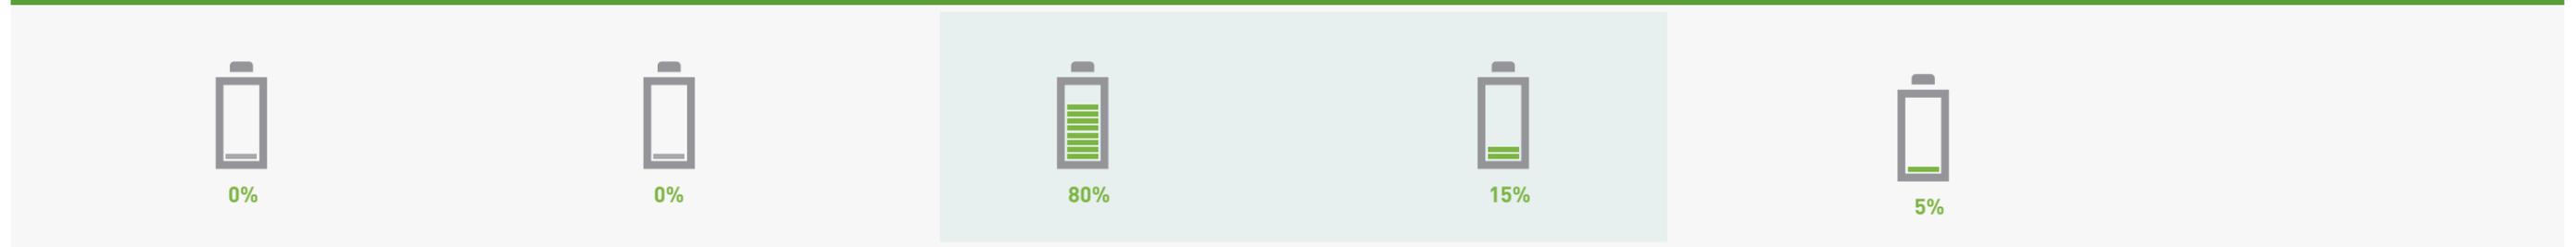

tackle rising fuel prices, bring internal resources together and take advantage of new technologies.

By making informed, energy-smart decisions now, you will be able to reduce today to invest in tomorrow

## How much do you influence?

## Typical Concentration of Strategy & Planning

## How much energy are you wasting?

Right now, most organisations in the UK are wasting 20p in every pound spent on their energy bills - even if they operate out of state of the art energy efficient buildings. To find out exactly how much energy you are wasting, call us today on 01752 262626.

## WHY CHOOSE IU ENERGY?

We are one of the UK's leading specialists in energy management with established connections to world-leading reduction technology, tier one arrangements with

the top energy providers and access to exclusive financial options for capital funding and intelligent energy buying.
